EDUCATION

Yeshiva University, Katz School of Science and Health *New York, NY | December 2026*
Master of Science in Cybersecurity
Chinhoyi University of Technology *Zimbabwe | May 2024*
Master of Science in Big Data Analytics
University of Zimbabwe *Zimbabwe | September 2021*
Bachelor of Science Honours Degree in Computer Science

PUBLICATIONS

Mitigating Deepfake-based Impersonation and Synthetic Data Risks in Remote Healthcare Systems
International Journal of Computer Applications, Volume 187 - Number 41, September 2025

- A multi-layered security approach combining biometric authentication, deepfake detection, and blockchain to protect telemedicine systems, achieving over 95% detection accuracy and real-time session protection.

PROJECTS

Malicious URL Prediction Model – July 2025

- Developed a Malicious URL Prediction Model using supervised machine learning and strategic feature engineering to enhance malicious URL detection accuracy while minimizing overfitting.

Goldman Sachs Risk Virtual Experience Program on Forage – April 2025

- Gained understanding of how Risk Analysts assess key risks for investment portfolios and devise mitigation strategies.

Mastercard Cybersecurity Virtual Experience Programs on Forage – April 2025

- Identified and prevented security risks with the Mastercard Security Awareness Team.

AI ThreatFlow Analyzer – May 2025

- Developed an 85% accurate network traffic classification model using 1M flow records, RFE for feature selection, and Random Forest to predict attack events.

PROFESSIONAL EXPERIENCE

Plan International February 2022 – January 2025
Information Technology Coordinator

- Served as the principal subject matter expert regarding system protection, data security, governance, risk, regulatory compliance, and security awareness training.
- Implemented security controls, including Multi-Factor Authentication (MFA) and BitLocker encryption, strengthening endpoint protection and reducing unauthorized access risks by 25%.
- Managed Trend Micro endpoint protection and Cisco Meraki network firewalls, improving threat detection, network visibility, and perimeter security efficiency.

Plan International September 2019 – September 2020
Information Technology Intern

- Administered and maintained Windows servers, ensuring 99.9% uptime through proactive performance monitoring, patch management, and system optimization.
- Collaborated with cross-functional IT teams to support infrastructure upgrades, patch deployments, and security hardening initiatives.
- Developed, documented, and implemented comprehensive Standard Operating Procedures (SOPs) for IT infrastructure, network administration, and security operations, ensuring consistency and compliance with organizational policies.

LEADERSIP, CERTIFICATIONS, AND MEMBERSHIP

ISACA New York Metropolitan Chapter July 2025 – Present
Vice President, ISACA Yeshiva University Chapter

- Lead a 150+ member cybersecurity student organization dedicated to advancing technical skills and bridging academic research with real-world security practices.
- Strategize, organize, and execute cybersecurity awareness campaigns and sessions to educate students on current cyber threats, best practices, and emerging trends in cyberspace.
- Coordinate cybersecurity events, industry certifications, capture-the-flag competitions, and networking initiatives in partnership with ISACA NY and other professional associations.

Attendance Scholarship Award – 2025 FAIR Conference on Cyber Risk Quantification

- Engaging in continuous cyber risk management by enabling real-time quantification, prioritization, and mitigation of cyber risks, to support digital growth initiatives and ensure organizational resilience in the face of evolving threats.

Certifications : ISO/IEC 27001:2022 Lead Auditor, ISC2 Certified in Cybersecurity, Databricks Generative AI Fundamentals
Memberships : ISACA, ISC2, Women in Cybersecurity (WiCyS)
Skills : Python, SQL, MySQL, TensorFlow, scikit-learn, LLMs, Risk & Vulnerability Analysis, Cyber risk quantification
